ITALY IN THE MEDITERRANEAN

Italian Consulates In Corsica, Tunisia Stormed By Rioters

TUNIS, Tunisia, Dec. 5. — Heavy police guards were thrown around the Italian consulates in Tunis and Sousse-Tunis today following angry demonstrations to the shouts of "down with Italy!" in both cities yesterday. An undetermined number of rioters were injured in skirmishes. Fifteen persons were arrested.

Mobile guard units were kept ready today to aid police in several cities of this French North African protectorate while local authorities were instructed to break up any unauthorized demonstrations. Italian residents who appeared on the streets wearing Fascist insignia were forced by crowds to discard their emblems.

AJACCIO, Corsica, Dec. 5. — The mayor of Ajaccio appealed to the populace today to remain calm after anti-Italian demonstrations last night in the streets of Ajaccio, Bastia, and other Corsican cities.

Organizations of all types held hurried meetings throughout the Mediterranean island and sent telegrams of loyalty to France to Premier Edouard Daladier's government.

A police guard posted around the Italian consulate was doubled this morning when many thousands of rioters surrounded the consulate chanting "Long live French Republic!"

Annexation?

The Italian Chamber of Deputies resounded to frenzied cries calling for the annexation of the French possessions of Tunis, Nice, Corsica and Savoy, as Franco Pavesi, newly appointed French Ambassador to Rome, embarrassed himself when he did not understand what was being said. The action of the deputies was seen as Italy's first bid for territories, shown above, which now belong to France.

Go West, See What

Premier Denies Promising \$25 Dividend

S. C. Doing—Aberhart

SEATTLE, Ont., Dec. 5.—Go west and see what Social Credit is doing for Alberta. Premier William Aberhart left last night in First Presbyterian church here. The premier came back to his home town before returning west after a trip to Ontario.

It was Mr. Aberhart's first visit since 1931 to his 80-year-old mother, Mrs. Louise Aberhart, and his two brothers, Charles and Louis.

In an interview, Mr. Aberhart denied ever promising a \$25-a-month dividend to Albertans. He told audiences he saw no reason why a dividend shouldn't be paid and that he thought this dividend was the only way to solve the problem.

Dividends will only be paid, he said, out of a surplus created by Alberta's natural resources. "Never will any dividend be paid from taxation. That only impoverishes one group to satisfy another."

On the question of relief projects, Mr. Aberhart asked "Why build highways with relief labor when a machine with five men will do the work of 100 men at a quarter the cost?"

Not Forgotten Fund Gets Added Support

Less than three weeks remain before Christmas Day will be here with all its glories, and all its good-will toward men. The Christmas rush is rapidly gathering up for its last lap, and it is time to get ready.

Now you overlook one important thing. You overlook the fact that the Christmas rush is rapidly gathering up for its last lap, and it is time to get ready.

Each Christmas season The Bulletin opens its columns to receive contributions to the Not Forgotten Fund, the object of which is to provide a Merry Christmas and a Happy New Year for those former soldiers of the Canadian Corps and the British Empire who are now in the hands of the enemy.

To many veterans this fund represents the only bright spot in the year. Day after day on a hospital cot is no fun. Year after year they sit there, waiting for the day when they will be able to go home.

Now is a golden opportunity to show that you are not forgotten and that you appreciate what they have done.

The Army and Navy Vets in association with the Canadian Corps Association are the latest organizations to rally to the Not Forgotten Fund. On Tuesday, Dec. 20, at 8:15 p.m., these organizations will present a grand broadcast over radio station CKUA, the station of the Canadian Broadcasting Corporation, a bang-up program will be given with Ed. Sturrock as master of ceremonies.

It will be a grand opportunity to show that you are not forgotten and that you appreciate what they have done.

Territorial Pacts By Germany, Italy Enough For Czechs

Action Seen Through German Pressure, Indicating Germany Does Not Want Britain, France Involved in S.E. Europe

By J. F. SANDERSON
Canadian Press Staff Writer

LONDON, Dec. 5.—Great Britain and France may never be asked to enforce the guarantees to Czechoslovakia they promised in the Munich agreement.

There is a growing feeling here that the Munich agreement if Great Britain did not give guarantees, but the Czech-Slovak situation did not want them, the two countries could not run counter to the wishes of the Munich agreement.

A British guarantee has not met with a large amount of public favor here because of the extreme difficulty of enforcing it. In Britain's long history never has a territorial guarantee been given in that part of Europe and it is believed there would be no such guarantee if the idea were dropped.

Dorothy Dix Says:

WHAT'S a wife worth? A farmer who recently spent 30 cents in his local paper in advertising for a bride committed: "Well, if I get married, it will be worth the money." The Bible puts the price of a good wife as beyond rubies, and in the marriage market the bride is invariably given away.

Apparently wives have no fixed market value like pearls or potatoes or any other commodity. Each man writes his own price tag for his own possession. For he will see one woman as the wife of his life and the treasure of his life and who keeps her wrapped in mystery and fun and spends his time admiring her and congratulating himself on her being so different from him. Another man regards his wife as merely a creature that he wishes on himself in some unguarded moment, and that he would be glad to get rid of if he could.

So there we are, and the answer to the question: "What is a wife worth?" would seem to be that she is worth whatever her husband thinks she is worth, but that it is not true. Whether true or untrue, it is a wife's value, even apart from any consideration of her looks, her talents, her personality, her pinches and household conveniences, that counts. For she is often asked to be a wife instead of becoming a millionaire, who has been satisfied just to work a little and play a lot of the while, had to hustle out and get her hair done by his wife's hair, but he did, and by the time he made enough to provide her with honest money, had earned honest money, had become a co-sister.

And any doctor will tell you that the best insurance a man can take is to get married, and that while it may drive a man wild to have his wife incessantly nag him about going to see the doctor and wearing his rubbers and putting up with him and cutting down on his food and on and on and on, it is the best insurance a man can have. Dorothy Dix.

Make a Hit at Dances: Learn Newest Steps

The investment would pay handsome dividends. East did. For a few dummies' heart goes as an enemy because he himself was over it with the jing, but the spouse was a decided menace. To lead because you know you lead dreadful and feel that perhaps a jar or two will do the trick, and will surely remove the sea was to lay down the spade king. Having reached this conclusion, East promptly made this Deschamps couple, and by so doing, acquitted any chance declarer had of winning the contract.

RAISING A Family

Raising a family is a cold weather sport, and a much more character is in order late at night when the spirit of hospitality gets hungry. Nerves, although simple, should be given a little more rest. That's the way. Kitty Carver feels about it—

Saskatchewan University
President Preaches At
Knox Church

Modern science is not opposed to religion, Dr. J. S. Thomson, president of the University of Saskatchewan, said today when preaching at the 45th anniversary service of Knox United church.

"The basis of scientific research," the guest preacher declared, "is that nature is trustworthy. It will give the same answers to the same questions at all times."

"If water boiled at one temperature one time and at a lower one later, it would obviously be impossible to carry on any accurate research."

GOVERNED BY LAW
"The majestic canopy of the heavens, the regular succession that prevails in the order of nature, attests to the fact that the world is governed by law."

"It would be a task upon my mental ingenuity," President Thomson remarked, "to believe that there is law in the universe but that there is no law here."

Far from weakening our faith in religion, scientific research, said Dr. Thomson, only shows that religion should strengthen it by showing that order is at the heart of things he added.

Dr. Thomson pointed out Bacon's aphorism that "it is true that a little philosophy inclineth man's mind to atheism, but depth in philosophy bringeth men's minds about to religion."

"To justify our lives it is imperative that the world be made more just," he urged.

PLACE IN THEOLOGY
Recalling that "Trentan memories of the shorter catalogue" might be that all people remember of the once historic and challenging doctrine of "Faith by justification," Dr. Thomson reviewed the cardinal place that belief holds in Christian theology.

"I am not speaking with cynicism but with a deep sense of alarm when I say that our societies, founded on the faith that if only we could get men talking reasonably about a round table our troubles would be over, have come to naught."

The League of Nations has fallen on evil days. We are now eating the bitter of disappointment and are consumed by shame."

NEW DEDICATION
Speaking on the strength of tyranny in the world and the persecution that rages, Dr. Thomson pleaded for a new dedication with spirit of Christianity as a solvent of the times' disorders.

Dr. Thomson, who was assisted at the service which was attended by a capacity congregation by Rev. Dr. Knox A. Macdonald, minister of Knox United church, also spoke at the evening service.

He will be guest speaker at a dinner meeting for the congregation and its friends Monday night at the church.

Man Is Arrested

Waving what looked like a revolver at Geo. Goo, Chinese partner in the Grand Cafe, Jasper avenue, at 1:10 p.m. Sunday, a man threatened to shoot the waiter, who then left the premises. Police, called to the cafe, searched the area with two witnesses who said they knew the intruder, but it was some time later that Detective Hugh Allen arrested the man and charged him with assault. The man gave his name as Fred Knisk, aged 35.

In his possession at the time of the robbery was a toy pistol, though the police be the same as used to threaten Geo. Knisk.

Knisk was to appear in city police court Monday.

New Basis For Grants Is
Discussed, Also Act
Amendments

Mayor J. W. Fry of Edmonton and Mayor Andrew Davison of Calgary, accompanied by officials of both cities, interviewed Hon. Dr. W. W. Cross, minister of health and in charge of relief, at the legislative buildings at 2:30 p.m. today, relative to the newly-instituted 40 per centage basis of relief payments.

Receiving its first cheque under this plan, Calgary's Edmonton sustained a loss of \$30,000 for the months of September and October. Previous grants were \$100,000 for two months, the cheque Saturday being for \$75,000.

Accompanying the mayors were Commissioner John Hodgson, and Edmonton's relief manager, H. F. McKee.

PETER CHALMERS
governor of District 13, Optimist club, who is speaking at Calgary in connection with Optimist Week.

September grant, Mayor Davison was informed over long distance telephone by Commissioner E. A. Hrovsky. On the lump sum basis Calgary had been receiving \$40,000.

This results in a cut to Calgary of \$28,000, but when account is taken of additional assistance being given for indigent relief, the city will have approximately \$51,000 a month.

IGNORANCE ITEMS
The province, in making its grant, recognizes only food, clothing and shelter as proper charges, leaving out hospitalization, administration and other costs.

The province also has been contesting utility charges, claiming that they are too high and should be supplied at cost.
